Explanatory Notes

In relation to Question 1 -

Types of Taxi Service Licences in Queensland Taxi Service Areas

In relation to the taxi licences for question 1, the restrictions (conditions) that apply to the licence are listed under 'Authority Type'. A legend of the list is provided below:

CAB	Conventional Taxi Service Licence – Metered Taxi Service Area
CAM	Wheelchair Accessible Taxi Service Licence – Metered Taxi Service Area
CAX	Conventional Taxi Service Licence – Exempt Taxi Service Area
CAXM	Wheelchair Accessible Taxi Service Licence – Exempt Taxi Service Area

NB. Taxi Service Licences with owner/driver and/or people mover conditions attached were removed from all licences in April 2017.

In relation to Question 2 and 3 -

Taxi Licence Information Register

The Department of Transport and Main Roads (TMR) developed a register to provide TMR staff with up to date and accurate information about taxi licence sales and transfers in Queensland.

TMR report monthly on taxi licence sales and transfers, recording the last five sales/transfers in contract areas. For non-contract metered and exempt taxi service areas, only the last sale of each licence type is recorded.

If required, further information can be sourced from TMR records, however this information was not included when producing the time estimate for the RTI request and will require significant manual effort.

Taxi Service Contract Areas

Taxi Service Areas that hold a contract with the Department of Transport and Main Roads (TMR) are included in the **Taxi Licence Information Register** and listed separately under each tab. Please note that Bribie Island and Warwick Cab no longer hold a contract with TMR (contracts for these areas were not renewed after 31/12/2013).

Accessible Transport Queensland (ATQ) vehicles

Commencing in May 2007, as part of the Accessible Transport Queensland (ATQ) initiative, one-off financial assistance was provided to 65 regional and remote areas of Queensland in the form of wheelchair accessible taxis (WATs). Approximately \$4.8 million in funding was provided for either the purchase of new and/or second hand vehicles suitable for modifications; and/or the modification of existing taxis with the addition of a hoist.

Funds were provided as a grant over the life of the vehicles and a pro-rata balance was repayable in the event of an earlier sale of the vehicle/business. Taxi operators were required to bear the on-going operating costs of the WAT vehicle under licence holder funding agreements.
